

TANZANIAN CHILDREN'S FUND

2014 ANNUAL REPORT

MESSAGE FROM OUR FOUNDER

As we began our second decade of operations, one might have expected that life would have become fairly ho-hum and business as usual. Not so! Looking back, our year was once again filled with many “firsts” that indicate that not only are we making progress...we are continuing to innovate while making meaningful change!

We started the year with an important new initiative– the launch of our partnership with Oldeani Secondary School. Given our experience managing Gyetighi Primary School, we did not take on this challenge with as much trepidation as one might expect, but it was still a big leap, and by all accounts a challenge that we have met head on and with remarkable success. Later in the year we celebrated another new milestone–the graduation of our first RVCV kids from Form 4 (high school)! In September, two of our other RVCV kids completed vocational education and were the first to leave the nest and start their “real” adult jobs. Additionally, 2014 marked the first time that TCF’s Board of Directors visited the Children’s Village together to celebrate all that we have accomplished to date and look towards all that lies ahead.

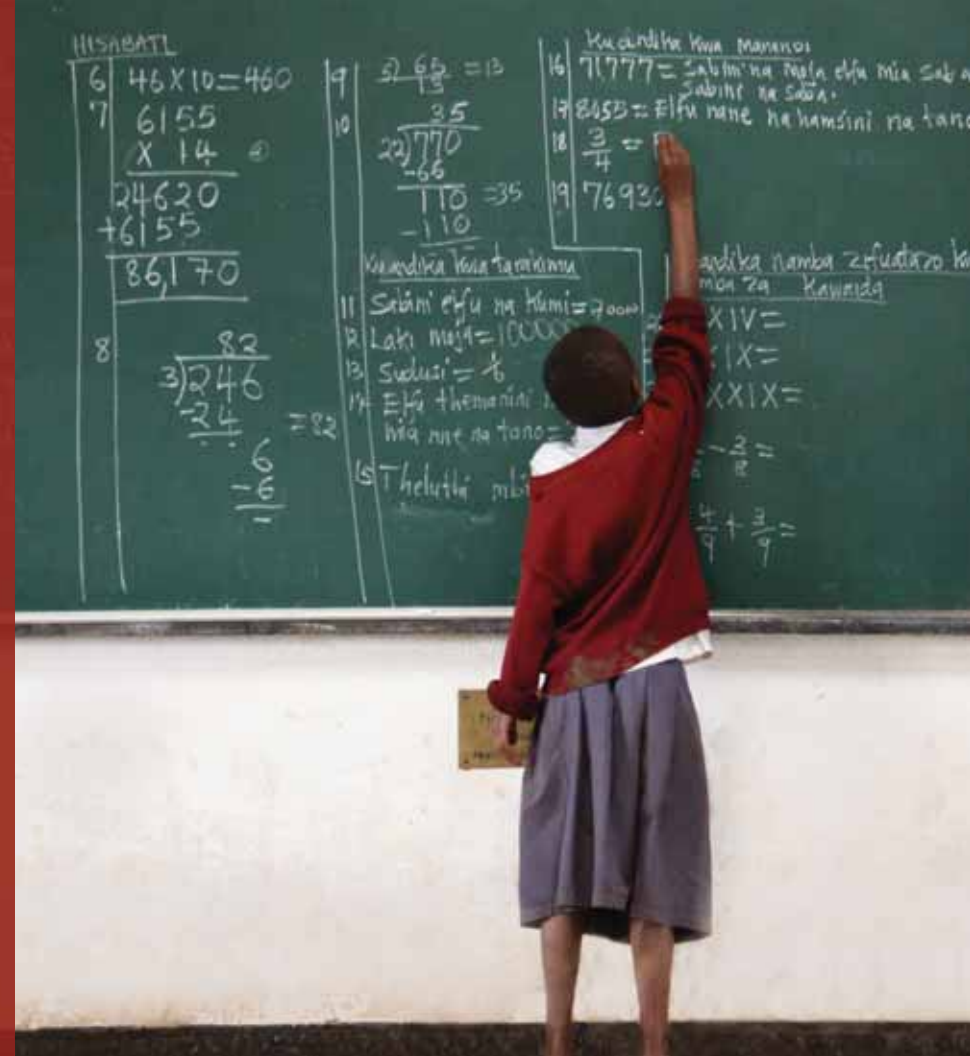

Read on to learn about all of the other “firsts” that made an impact on our community in 2014, and see how your support helped us reach these milestones. Please know that YOU are making a difference to thousands and thousands of people through your support of TCF!

Andia Howell

LIFTING LIVES

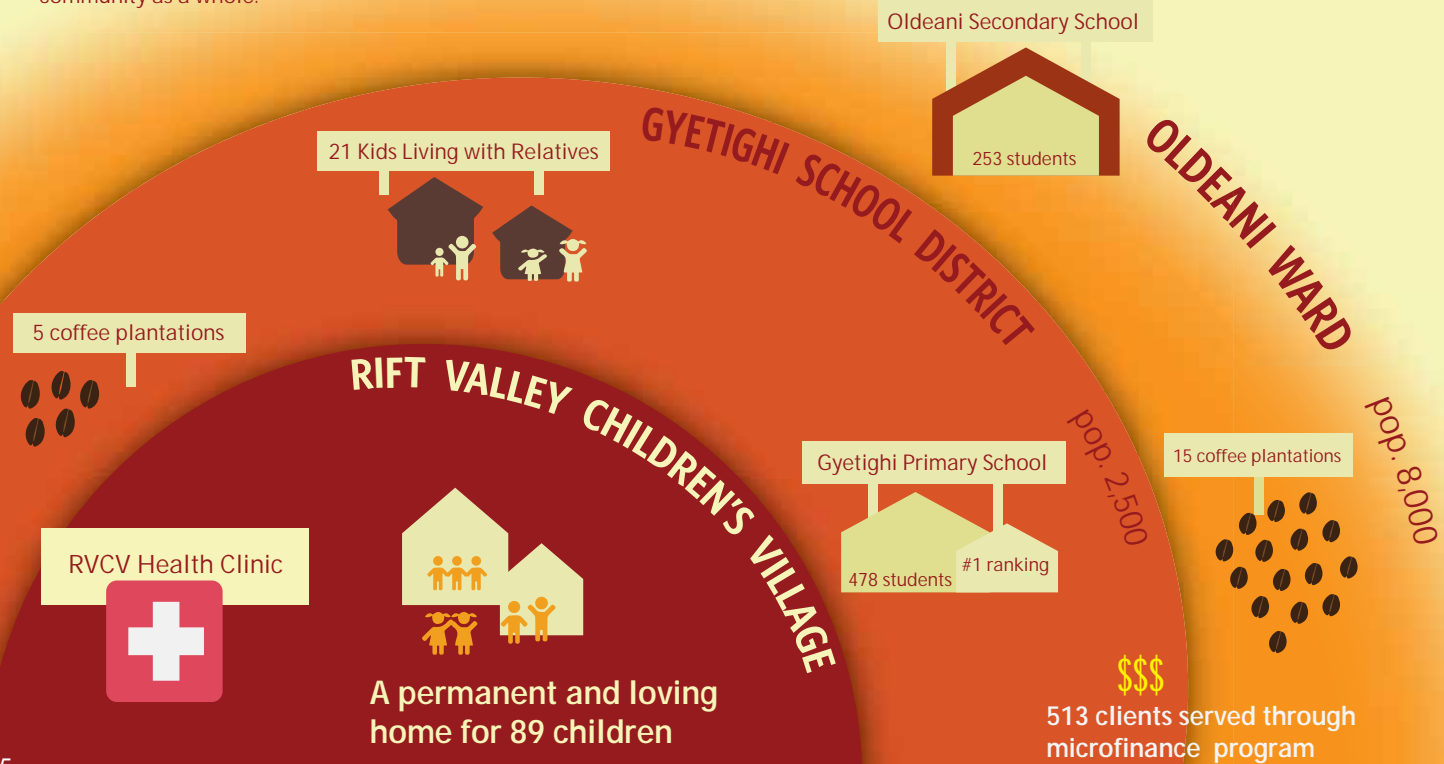

TCF lifts lives everyday at the Rift Valley Children's Village, which serves as a loving and permanent home to 89 orphaned and vulnerable children.

CIRCLES OF IMPACT

The 94 children living at RVCV are at the heart of our mission. However, we recognize that the most effective way to improve outcomes for all marginalized children is to strengthen the community as a whole.

This is why TCF and RVCV have taken a multi-pronged approach to combating poverty through the following community-based programs:

- Gyetighi & Oldeani School Partnerships
- Free Medical Care
- Microfinance Training and Loans
- Kids Living with Relatives

BUILDING FUTURES

In addition to providing a home for our children, TCF works to transform our surrounding community so that all children have the chance to grow up in a healthy and positive environment.

ATTACKING POVERTY FROM **ALL SIDES**

CHILDREN'S VILLAGE

MICROFINANCE

HEALTH

EDUCATION

LASTING CHANGE

TCF recognizes that the most effective way to ensure lasting progress is to attack poverty from all sides. For that reason TCF provides education, healthcare and economic opportunities in tandem in order to catalyze permanent and positive change.

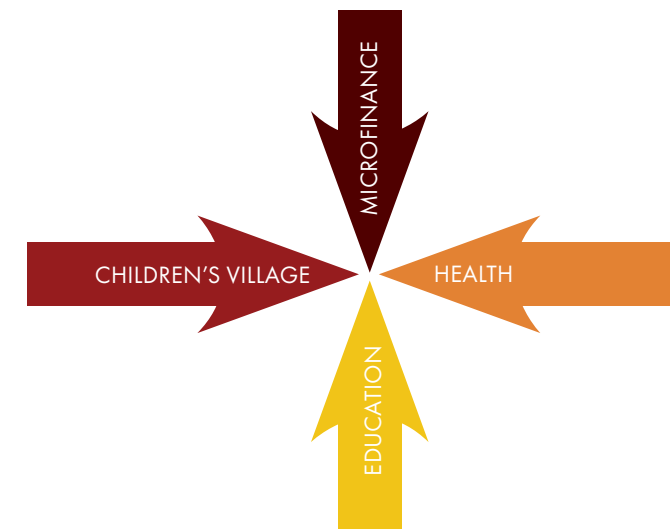

EVERY CHILD INSPIRES US

OUR MODEL

What began with a small house on a hill has—eleven short years later—grown into a flourishing home for 89 children who are learning, thriving and serving as joyful reminders that “hope is happening,” every day.

Creating a healthy and positive future for children has always been at the heart of TCF’s mission. However, as our children have grown, our vision for what is possible for them—and for our community—has grown just as big. Recognizing that **the most effective way to improve outcomes for marginalized children is to strengthen the communities they live in**, TCF has expanded beyond the Rift Valley Children’s Village to also serve the families of Oldeani Ward. The challenges facing these families are numerous and interrelated, which is why TCF has adopted an innovative, multi-pronged approach to give families the tools and opportunities they need to help themselves.

Our model is unique in that it attacks poverty from all sides through education, healthcare and microfinance programs in order to create permanent and lasting change. Read on to discover how each of our programs plays a key role in lifting lives and building futures in our community.

TO TRANSFORM A COMMUNITY

CHILDREN'S VILLAGE

RIFT VALLEY CHILDREN'S VILLAGE

Hundreds of orphanages exist in Tanzania to temporarily give food and shelter to orphaned and abandoned children. However, the Rift Valley Children's Village (RVCV) is unique in that it goes far beyond the basics and provides holistic care in a stable and loving family setting. Not only are the 89 children living at RVCV not up for adoption, but we strive to make sure that every child knows how much they are loved and valued as a permanent part of our family. Each child is supported through secondary school and remains a part of

our family even as they begin their first jobs and start their own families.

The RVCV team also strives to provide our children with a range of experiences and life skills in order to build their confidence and broaden their horizons so they can meet adulthood feeling valued and worthy of success. It is our belief that if children receive a quality education, have access to regular healthcare, and are part of a stable and loving environment, they will become productive citizens who can and will shape Tanzania's future for the better.

“The Rift Valley Children's Village is my favorite place in the world. I've worked with children in many different settings, and these are truly the happiest kids that I know. India and Peter have created a home that is happy and relaxed, and the sense of feeling safe and unconditionally loved they provide gives the children the confidence to get outside to play, explore and discover. RVCV functions as a family, and all of the family members are held accountable. The kids know what is expected of them, and work to meet a level of expectations that has been set high. I have total confidence that the children of RVCV will succeed at whatever they put their minds to because they know they are loved, they know they have support and understanding, and they have been convinced that they can succeed since the day they arrived at RVCV.”

Three-time volunteer Sophie Bellenis

GYETIGHI PRIMARY SCHOOL

Gyetighi Primary School (GPS) exceeded all of our hopes and expectations in 2014 and proved once again that our investments in local education are paying big dividends. GPS moved up the ranks and was not only the #1 government school in the region, but also ranked in the top 2% of all schools in the country - both public and private. Students' test scores on the challenging Standard 7 National Exam were 6% higher than the previous year's results. We are also proud to say that 100% of Gyetighi students passed the

all-important Standard 4 and Standard 7 National Exams, making them eligible to advance to secondary school.

In 2014 we continued to innovate with the launch of the Gyetighi Parents Savings Program, designed to encourage local parents to save for secondary school expenses. Knowing how challenging it can be for the families in our community to save money, this program provides a secure location for them to put aside funds each month and even offers a small monetary incentive for making deposits. To date, 70% of the parents have signed up and started saving, many for the first time in their lives.

2014 also marked the first year we employed a full-time English as a Second Language teacher at GPS, which immediately showed results: 8 students scored 100% on the English portion of their National Exam, a first for GPS!

**#1 GOV'T SCHOOL
IN THE REGION**

- 478** Students
- 17** Teachers
- 3** Assistant teachers
- 1** Counselor
- 1** English as a Second Language teacher

OLDEANI SECONDARY SCHOOL

The success of our programs at Gyetighi Primary School (GPS) created demand by the local community for a similar intervention at the secondary school level. In November 2013, TCF signed a five-year contract with the government of Tanzania to co-manage Oldeani Secondary School (OSS) with the goal of making the school a center of academic excellence. Following the same model we used at GPS, TCF is providing the leadership, resources and infrastructure improvements necessary to make Oldeani the top performing secondary school in the region.

January 2014 marked the official launch of the partnership, and as expected, the year was full of exciting milestones as well as more than a few challenges. Improvements completed include:

- Addition of 7 teachers to the faculty
- Upgrades to school infrastructure including new classrooms, a new science laboratory, and a rain water management system
- Purchase of an array of laboratory equipment for use in chemistry and biology labs
- Purchase of \$15,000 worth of textbooks

Despite the hurdles, we are already seeing rapid results from our interventions. For the first time in the history of the school, 100% of Oldeani's Form 2 students passed their standardized National Exams. Equally promising - almost 70% of Oldeani Secondary students passed the rigorous Form 4 National Exam.

253 Students

15 Teachers

In addition to rising test scores, we noted the following progress indicators, which give us great hope of seeing even stronger results in 2015:

- Increased teacher attendance
- Use of alternative (non-corporal) forms of discipline
- Improved student engagement

ECONOMIC EMPOWERMENT

For many generations, seasonal coffee picking was the only employment available to families living in the rural areas surrounding RVCV. This lack of opportunity led to unemployment rates near 80% and average incomes under \$200 a year. Recognizing that economic empowerment is critical to breaking the cycle of poverty, TCF created a Microfinance Program in 2008 to provide local entrepreneurs with the training and resources needed to start and successfully operate small businesses.

New clients undergo thorough prescreening by our Microfinance Program staff, a week of training, and approval of their business plan before they can qualify for a loan. Training classes teach bookkeeping, marketing, savings strategies and business plan development. Initial loans are approximately \$125, however, through continued training and prompt repayment to demonstrate creditworthiness, clients can increase their loan amounts up to \$1,250.

2014 was a successful year for the Microfinance Program. Through two surveys conducted by our team, we learned firsthand that the program is impacting families in a meaningful way. Most importantly, the average income of our clients has increased when compared to surveys from the past two years. Even better, this newly found income is being put to good use: the majority of clients funneled their profits into housing and education opportunities for their families.

- 513** Active clients
- \$93,000** In active loans
- 61%** Of clients are women
- 70%** Of clients use their increased income to pay for secondary school fees for their children

HEALTH

RURAL COMMUNITY HEALTH CLINIC

From the start, TCF has made access to medical care for our children and our community a top priority. RVCV employs a full-time registered nurse at the Children's Village who provides our children, volunteers, staff and community with essential healthcare services. RVCV's nurse also holds annual health checks for all the students and teachers at Gyetighi Primary and Oldeani Secondary Schools. These head-to-toe assessments include a vision test, height, weight and temperature measurements, and screening and referrals for any serious conditions. In addition,

a volunteer dental team led by Dr. Teresa Castner held a six-day clinic and all RVCV kids and many staff benefited from exams, cleanings, and restorative treatments.

For serious medical cases, TCF partners with FAME (Foundation for African Medicine and Education), a fully-equipped medical facility in Karatu. FAME holds free bi-monthly clinics at the Children's Village for all the children and adults in our area. Having ready access to basic medical care has greatly reduced infant mortality, new mother mortality, and a wide range of debilitating diseases in our catchment area.

In 2014 RVCV's nurse liaised with health-care providers in Tanzania and the US to provide treatment for local patients with leprosy, hydrocephalus, bone TB and fractures. Additionally, TCF arranged specialized surgeries and follow-up treatment for 23 children from our area, greatly improving their quality of life.

1,200 Patients seen annually by FAME doctors at bi-monthly clinics

20 Patients seen daily by RVCV's nurse

23 Special surgeries arranged for community members

YEAR IN REVIEW

TCF creates a savings program for parents of Standard 7 students at Gyetighi Primary, which provides families with a way to save money for secondary school fees

5 RVCV kids graduate from Form 4 (high school)

TCF begins the first year of partnership managing Oldeani Secondary School

100% of RVCV's Standard 4 & 7 students pass their National Exams

William Wayda achieves the top score for all boys in the district on the Standard 7 National Exam!

The TCF Board visits RVCV for the first on-site board meeting in Tanzania

A woman is elected School Committee Chairperson for the first time in Gyetighi history

Gyetighi Primary is ranked #1 government school in the region,

and is in the top 2% of all schools in the country (public and private)

513 Microfinance loans are provided to the community

Gyetighi Primary School hires its first English as a Second Language (ESL) teacher

8 Students score 100% on the English portion of the Standard 4 National Exam

RVCV's nurse arranges specialized surgeries and treatment for 23 children from our area; the first baby is delivered at our rural health clinic

New community center is completed

Two of our RVCV kids complete their vocational education and start their first "adult" jobs

LETTER FROM OUR TREASURER

As we move into our second decade, TCF is well-positioned to expand the services that we provide to underserved families in northern Tanzania, without losing sight of our core mission: to support and aid the disadvantaged and orphaned children of Oldeani Ward. A key priority for 2015 is investing in our new Oldeani Secondary School project, while ensuring that we continue to support our existing programs. We are able to do all of this only because of the continued enthusiastic support of our donors. Thank you!!!

In 2014, we received over \$1,500,000 in contributions and other revenues, principally from individual donations and family foundations. TCF is dedicated to ensuring that donor funds are well spent, and that administration and fundraising expenses are kept to a minimum, so that 86 cents out of every dollar can go directly to programming. TCF also takes its long-term responsibility for providing stable and uninterrupted care for our children and community seriously, which is why we have committed to keeping a year's reserve of working capital in investment accounts. We entered 2015 in strong financial condition, with approximately \$675,000 in cash-on-hand and over \$1,440,000 in our Merrill Lynch "rainy day" investment account. As of May 31, 2015, our financial position continues to be strong, with over \$710,000 in cash-on-hand and approximately \$1,520,00 in our Merrill Lynch investment accounts.

OUR TEAM

Everyone knows the saying "It takes a village to raise a child," and RVCV is no exception to this rule. RVCV is a permanent home and family for 89 orphaned and abandoned children, as well as a source of love and support for 21 Kids Living with Relatives. India Howell and Peter Leon Mmassy serve as legal guardians to the children living at the village, but it also takes a dedicated team of house mamas, social workers, a full-time nurse, support staff, and over 60 volunteers annually to keep everyone healthy and thriving. "Asante sana" for all that they do for our children every day.

Additionally, TCF's Board of Directors is an integral reason for TCF's success, and we'd like to sincerely thank them for their service and support:

Jody Drake - Board Chair
 Todd Cronan - Treasurer
 Peggy Bacon - Development Chair
 Sallie Bear - Finance Chair
 Eleanor Doar - Member
 Linda Hayes - Member
 India Howell - Member
 Peter Leon Mmassy - Member
 Rob Rosser - Member
 James Schubauer - Member
